# Daniel Mbuvi Mulatya

Nairobi,Kenya
danielmulatya95@gmail.com | 0111367399

As a results-oriented Software Developer, I bring a proven history of success in crafting, implementing, and launching web and enterprise software solutions. Proficient across a spectrum of technologies, I excel in Python (including Django and Flask), C#, ASP.NET, .NET Core, PHP (with expertise in Laravel), JavaScript, Dynamic 365 Business Central, Odoo, Microsoft SQL Server, MySQL, and SQL Reporting Services.

## Professional Experience

**Integral Group Solutions** **06/23 - 12/23**
**Software Developer**

Full Time,Onsite

- Designed and developed cutting-edge web and mobile applications,delivering user-friendly and high-performance solutions that met or exceeded client expectations.
- Proficiently developed SOAP and REST Web APIs to facilitate seamless communication and integration with external systems like Shopify,VISA and M-Pesa, enhancing the functionality and connectivity of applications.
- Demonstrated expertise in designing, configuring, and managing databases, including MYSQL, and MSSQL, ensuring data integrity and efficient data handling.
- Proficiently designed user interfaces, backend architecture, and database structures for web applications, creating visually appealing and highly functional solutions.
- Successfully developed ERP systems using Dynamics 365 Business Central, streamlining business processes and improving organizational efficiency.

**Kitui County Government** **01/20 - 12/22**
**Junior Software Developer**

Hybrid

- Shadowed senior developers to enhance software development skills
- Contributed to team-based coding of new features and software applications
- Assisted senior engineers in tasks as assigned
- Designed program elements through experimentation
- Collaborated in updating and improving existing software
- Tested software applications and patches for successful deployment

**Kitui Government** **04/19 - 12/19**
**Intern,Software Developer**

Full Time, Onsite

- Provided help desk support to staff for hardware and software issues
- Installed and upgraded software on new computers
- Configured and maintained network devices, including routers
- Ensured consistent internet connectivity for all office devices
- Improved server performance through regular maintenance to prevent data loss and downtime
- Conducted training on new software systems for use in the county government on staff and citizens such as tendering software

## Education

**Moi University**
**BSc Computer Science - Second Class Honours**

- Software Engineering
- Internet Applications Development
- Statistics and Probability
- Database Systems
- Artificial Intelligence and Neural Networks
- Data Structures and Algorithms

## Websites

- Personal Website : www.mbuvi.cm.co.ke
- Linkedin : www.ke.linkedin.com/in/daniel-mulatya-546794161
- Github :  github.com/mbuvi254

## Key Skills

- Programming :Python,C#,C
- Server Side :SQL,MySQL,Git,MSSQL
- Data Analytics : Numpy, Pandas,SciPy,Matplotlib,R
- Operating System : Linux,Windows
- JavaScript : JQuery, Ajax,JSON,React
- Frameworks :Flask,Laravel, Django,.NET.Core,ASP.NET
- Development IDE : Sublime,Visual Studio,Visual Studio Code,R Studio,Anaconda3
- ERP Systems : Odoo,Dynamics 365 Business Central

## Interests

- Software Development
- Data Analytics
- Machine Learning
- Artificial Intelligence
